- Built in 1987

This traditional home is located on a quiet cul-de-sac in Hunters Park lined with mature trees, beautifully landscaped yards and just a short walk to Hartley Park. Great indoor and outdoor living spaces welcome you and give this house an air of comfortable living and style.

The foyer entrance graciously draws you into the living room, on through to a family room with fireplace and extends out to a wonderful screened-in porch. Completing the main floor is a formal dining room, eat-in kitchen, half bath, laundry, an office/den and an entrance from the garage (a perfect place to hang up coats and take off boots). Upstairs you find the master suite, 3 additional bedrooms and full bath. The lower level has a bedroom, large rec room, work room and lots of additional storage.
